Results from

Results from operations - expenses, continued

For the year ended December 31, 2016 patient support expenses were \$310 million, a decrease of \$38 million compared to 2015, and included work such as the following: our specific assistance to individuals through the Look Good Feel Better[®] program; our 24 hours a day, 7 days a week, 365 days a year National Cancer Information Center, which provides consistent, unbiased cancer information to constituents, helping them make informed decisions about their health and cancer care; our Patient Navigator Program that helps cancer patients manage their care; and our Hope Lodge® facilities, which provide free, high quality, temporary lodging for patients and their caregivers close to treatment centers, thereby easing the emotional and financial burden of finding affordable lodging. Due to timing of the receipt of wigs, we provided fewer wigs to constituents in 2016. We expect to return to distributing levels of wigs consistent with prior years in 2017.

Research expenses were \$153 million, a \$2 million increase over 2015, and comprised both our extramural research grants and intramural research program, which includes Cancer Prevention Study-3 (CPS-3), an important, large, prospective study to identify factors that cause or prevent cancer. In 2016, we completed the first full CPS-3 cohort follow-up survey, which, also for the first time, included a comprehensive dietary assessment. We received an excellent response rate to the 20-page survey. We also began the consent and collection of medical records and tissue samples from CPS-3 participants who ats S,earsu96.1(s)-2()0.6(f)3i20rvey.k.

In terms of liquidity, we continue to investigate a number of strategies for reducing the impact of market volatility on our funding requirements and financial results related to our defined benefit plan. 5. Activities with joint costs

For the years ended December 31, 2016 and 2015, we incurred expenses to conduct activities that had both fundraising appeals, as well as mission program and management and general components (joint activities). Those joint activities included direct mail, telecommunications, and other constituent relationship activities. Our costs of conducting those joint activities were allocated as follows:

	 2016	2015

6. Exchange transactions

Exchange transactions are reciprocal transfers in which each party receives and sacrifices something of equal value, as opposed to a nonreciprocal transaction (i.e., a contribution), in which a donor provides resources to support our mission and expects to receive nothing of direct value in exchange. Costs of exchange transactions that benefit the recipient of the exchange and are not directly related to our mission are reported as exchange expenses. Costs related to exchange transactions that directly benefit or support
